

MAYSSAE LARRADI

Master's Student in Software Engineering

✉ mayssaelarradi@gmail.com

🏠 Nanjing, China · Moroccan

🌐 github.com/MayLarradi · Born 06/11/2003

PROFILE

Motivated software engineering graduate currently pursuing a Master's degree at Nanjing University of Aeronautics and Astronautics (NUAA), China. Holds a Bachelor's degree combining a technical diploma in Digital Development (ISTA Bouznika) and a specialisation in Web & Mobile Development (ENSET Mohammedia), Morocco. Experienced in full-stack web development with hands-on project delivery, and eager to deepen expertise in AI/ML and mobile development. Multilingual with strong cross-cultural adaptability demonstrated through international academic experience.

EDUCATION

Master's Degree — Software Engineering

Sep 2025 – Apr 2028 (expected)

Nanjing University of Aeronautics and Astronautics (NUAA) — Nanjing, China

- Relevant coursework: Software Engineering Principles, Software Measurement & Quality Analysis, Digital Design & Computer Architecture, Data Mining, Optimization Theory & Application, Matrix Theory.

Bachelor's Degree — Web & Mobile Development

Sep 2023 – Jun 2024

ENSET Mohammedia (Hassan II University) — Mohammedia, Morocco · GPA: 3.00/4.0 · Mention: Good

- Relevant coursework: Algorithms & Programming, Databases, Web Technology, Systems & Networks, UML & Java OOP, NodeJS Platform, Mobile Application Development, CMS & Web SEO.

Technical Diploma — Digital Development (OFPPT / BTS equivalent)

Sep 2021 – Jun 2023

ISTA Bouznika — Bouznika, Morocco · GPA: 3.34/4.0 · Mention: Good

- Relevant coursework: OOP, JavaScript, Front-End & Back-End Development, Database Manipulation, Dynamic Websites, Data Management, Information Systems Security, Cloud-Native Applications, Agile Approach.

PROFESSIONAL EXPERIENCE

Administrative & Operations Intern

Jun 2024 – Sep 2025 · 6 months

M. Distribution — Bouznika, Morocco

- Processed and tracked client orders end-to-end, coordinating between sales representatives and warehouse staff to confirm product availability before order validation.
- Monitored overdue payments and proactively followed up with sales personnel on the payment status of their respective client portfolios.
- Conducted regular stock checks and inventory reconciliation to ensure accurate order fulfilment and prevent supply discrepancies.
- Maintained structured digital records and documentation, reinforcing attention to data accuracy in a business-critical environment.

Operations & Digital Support Intern

Jun 2024 – Sep 2025 · 6 months

Moony — Bouznika, Morocco

- Supported daily operational workflows, handling order processing and client follow-up tasks.

- Liaised with sales staff to relay order confirmations and flag outstanding issues, developing strong professional communication skills.
- Assisted in maintaining operational and administrative records, contributing to process consistency and traceability.

Web Development Intern

2022 · 1 month

Multisac — Bouznika, Morocco (Compulsory graduation internship)

- Embedded within the internal development and maintenance team, observing and contributing to live web system workflows.
- Gained practical exposure to professional software development practices, version control, and team-based project delivery.
- Conceived and developed the company's capstone project (see Projects section) to address a real operational need.

PROJECTS

Employee Food Ordering & Reservation Platform

2022 – 2023

Bachelor's Capstone Project · Multisac, Bouznika, Morocco · Stack: Laravel · PHP · Tailwind CSS

- Identified a real workplace problem: employees at Multisac had short breaks and no efficient way to pre-order or reserve meals from nearby food providers.
- Designed and developed a full-stack web application aggregating multiple food vendors in one interface, allowing employees to browse menus, place orders, and make reservations in advance.
- Implemented user authentication, role-based access, menu management, real-time ordering flow, and reservation tracking.
- Delivered end-to-end from requirements gathering to deployment, applying MVC architecture with Laravel and a responsive Tailwind CSS frontend.

TECHNICAL SKILLS

Languages	PHP, JavaScript, Python, Java, Dart, HTML5, CSS3, SQL
Web Frameworks	Laravel, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap
Mobile	Flutter, React Native
AI / ML	TensorFlow, Keras, scikit-learn, Pandas, NumPy
Databases	MySQL, PostgreSQL, MongoDB, Firebase
DevOps & Tools	Git, GitHub, Docker, Linux, REST APIs, Postman, VS Code
Concepts	OOP, MVC Architecture, Agile / Scrum, UI/UX Fundamentals

LANGUAGES

Language	Level	Proficiency
Arabic	Native	●●●●●
French	Fluent (C1)	●●●●○
English	Fluent (B2–C1)	●●●●○
Turkish	Elementary (A2)	●●○○○
Chinese (Mandarin)	Beginner (HSK 2)	●○○○○

INTERESTS & ADDITIONAL INFORMATION

Open-source development · Artificial intelligence & emerging technologies · UI/UX design · Cross-cultural collaboration · International academic mobility (Morocco → China) · Team sports (basketball, volleyball, football) · Swimming
